

Homework - Friday 21st April 2023

Due in: Friday 5th May 2023

L.O. - I can use secondary sources to find out about a world river

I would like you to choose a world river e.g. The Seine (France), The Nile (Egypt), The Yangzte (China), The Amazon (Brazil) or the Ganges (India). You can choose another important river if you wish. Then, research this river in **detail**. You can produce an information text or a fact file. Think about the headings you will need and the information you will include e.g. length of the river, countries it flows through, wildlife in and around the river, any importance it has to the local people and what the river is used for (land, industry, tourism, water sports). Please present neatly and feel free to add in pictures to accompany your information.
