

Earth, Sun and Moon/Rivers and Mountains Homework – Lent Term 2024

Create a model of our solar system.

Explore some of the constellations that are in our galaxy. What do they look like? Where do they get their name from?

Find out about the first person who climbed Mount Everest. Who were they? What was their name? Write a biography about them and their life before and after they climbed Mount Everest.

Create a piece of art work that reminds you of a river.

Create a model and explanation of how the earth spins on its axis as it orbits the sun.

Research the phases of the moon and design a mini 'Moon Flick Book.' You should include a front cover, headings and any relevant information to each phase.

Create an A to Z list of words to do with rivers and mountains.

Research one of the mountains in the UK or the world.

NASA are recruiting for their next space mission. Write a letter of application for a job to NASA justifying why you should be chosen as a Space Scientist.

You are going on a spaceship and can only take 10 things with you. What will you take? Give reasons for each item and how they will be useful.

Which animals are suited to mountain habitats? How have they adapted?

Make a model of a river, including its physical features.
